Have a look at the statements (1–6). Use conditional II (*If I were, I would ...*) and give useful advice. The first one (0) has been done for you. Compare your results with a partner.

0 I want to order a refreshing non-alcoholic summer drink.

If I were you, I would try apple cider.

1 I want to enjoy a glass of wine that perfectly pairs with a steak.

2 I want to drink something refreshing after a hiking tour.

3 I want to try a very strong beer.

4 I want to try a typical Austria liqueur.

5 I want to enjoy a glass of sparkling wine as an aperitif.

6 I want to have a glass of wine which goes well with chocolate cake.

You are representing Austria at the annual meeting of the *European Association of Hotel and Tourism Schools (EAHT)* which takes place in Bologna. You were asked to give a presentation about a famous Austrian drink and decided to give a presentation about beer. In your presentation you should

- name the typical ingredients of beer
- explain how the process of beer fermentation works
- speculate why beer is such a popular drink in Austria.

Speak for about four minutes. Get into pairs and give your presentations.

Has drinking alcohol really become unpopular?

by Sarah Miller

I've recently read a new *WHO* report about adolescent alcohol-related behaviours. The report reveals that alcohol use has declined among adolescents in Europe. However, despite the drop in numbers, levels of consumption remain dangerously high and this continues to be a major public health concern.

To be honest, I was quite surprised by these results. My friends and I don't drink that much alcohol when we go out or hang around, sometimes we even don't drink at all.

For us this is quite normal and, most importantly, nobody will be bullied or forced to drink. Some of my friends are extremely sporty and want to live a healthy lifestyle, that's why they stopped drinking at all. Some of them do not even drink a small bottle of beer or a glass of wine. Even if there is something to celebrate, they just say NO.

So reading the results of the report stating that levels of alcohol consumption remain dangerously high made me think about this issue.

What do you think about teenage drinking? Please share your thoughts with me. Can't wait.

You have decided to comment on this blog entry. In your blog comment you should

- point out your personal drinking habits
- comment on the situation among teenagers in Austria
- suggest ways to make teenagers aware of the dangers of drinking too much alcohol.
